Experiment - 1

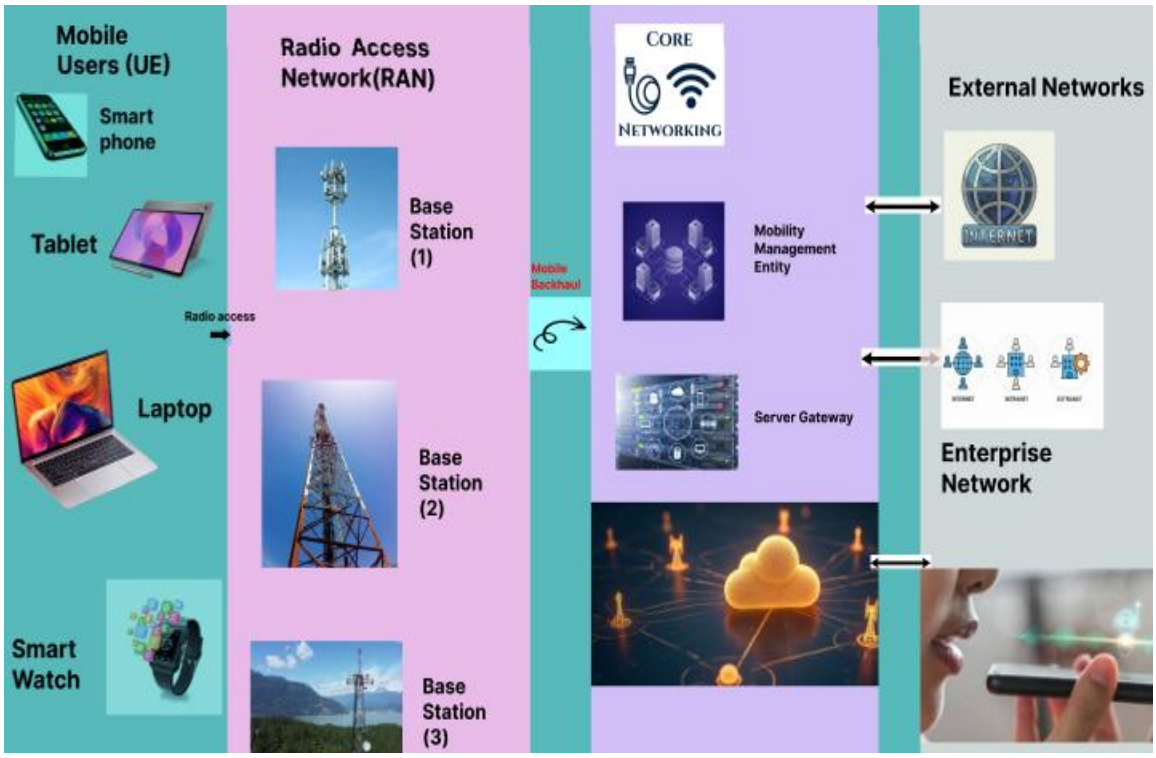

1. Interactive Diagram of a Basic Cellular System

Aim:
To create an interactive diagram illustrating the components of a basic cellular system using Figma.

Procedure:

1. Open Figma and create a new design file.
2. Create a frame with a suitable size.
3. Add a mobile phone to represent the Mobile Station (MS).
4. Add a Base Transceiver Station (BTS) to represent the cell tower.
5. Add a Base Station Controller (BSC) and Mobile Switching Centre (MSC).
6. Connect all components using arrows and lines.
7. Add labels to identify each component and its function.
8. Use the Prototype option to connect elements and make the diagram interactive.

Output:

Result:
An interactive diagram of a basic cellular system was successfully created using Figma.
