Experiment - 2

2. User Interface Prototype for a Mobile Station

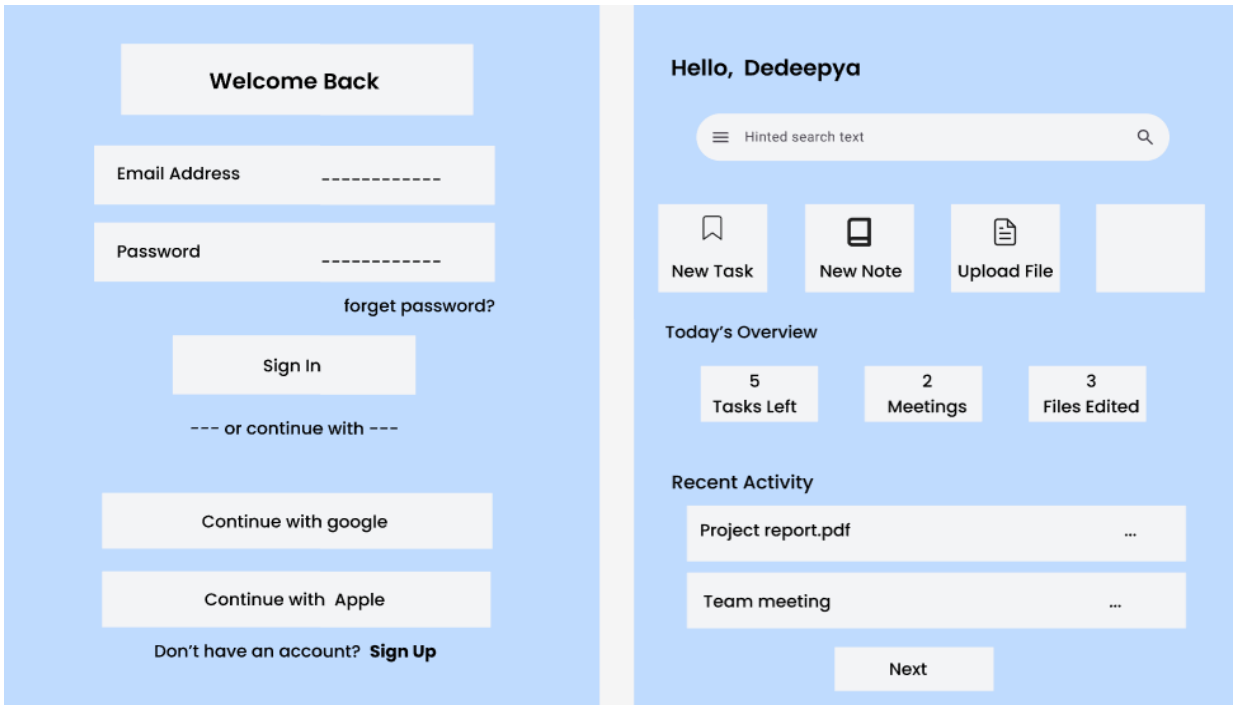

Aim:

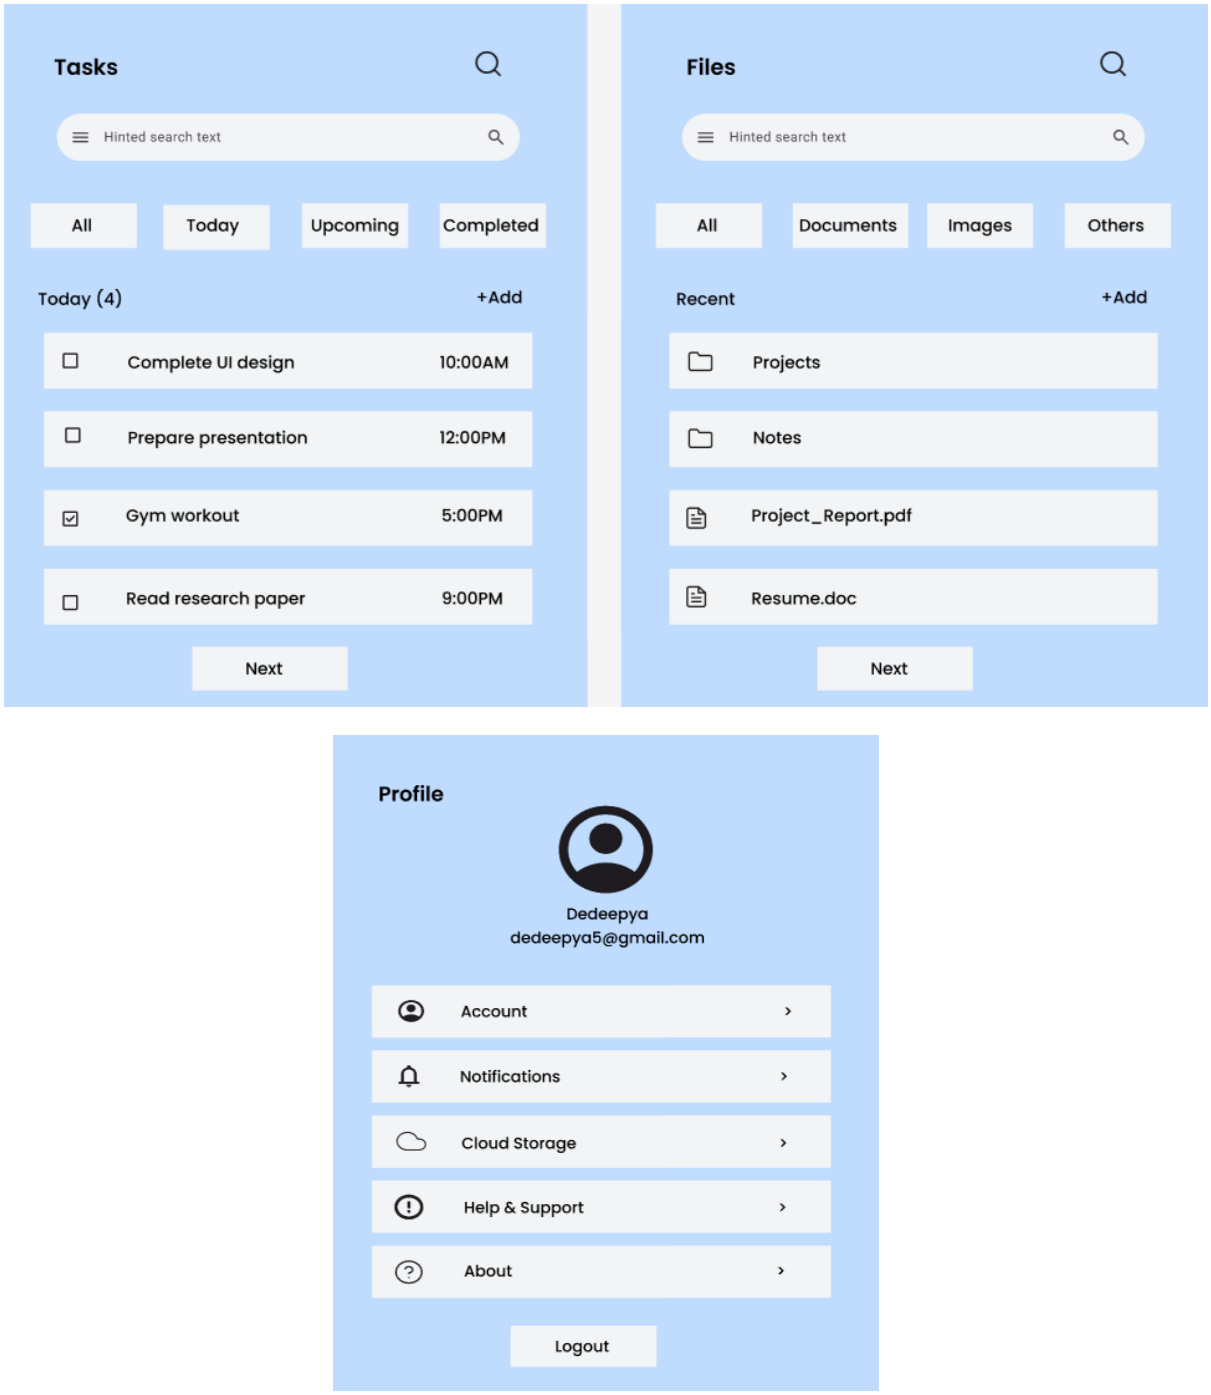

To design a user interface prototype for a mobile station using Figma, considering connectivity and convenience.

Procedure:

1. Open Figma and create a new design file.
2. Create a mobile screen frame.
3. Design a home screen with a simple layout.
4. Add network signal, battery, and Wi-Fi indicators.
5. Add calling, messaging, and contact icons.
6. Design a settings screen for network connectivity.
7. Connect the screens using the Prototype option.
8. Preview the prototype and test the navigation between screens.

Output:

Result:

A mobile station user interface prototype was successfully designed using Figma.
