Experiment - 6

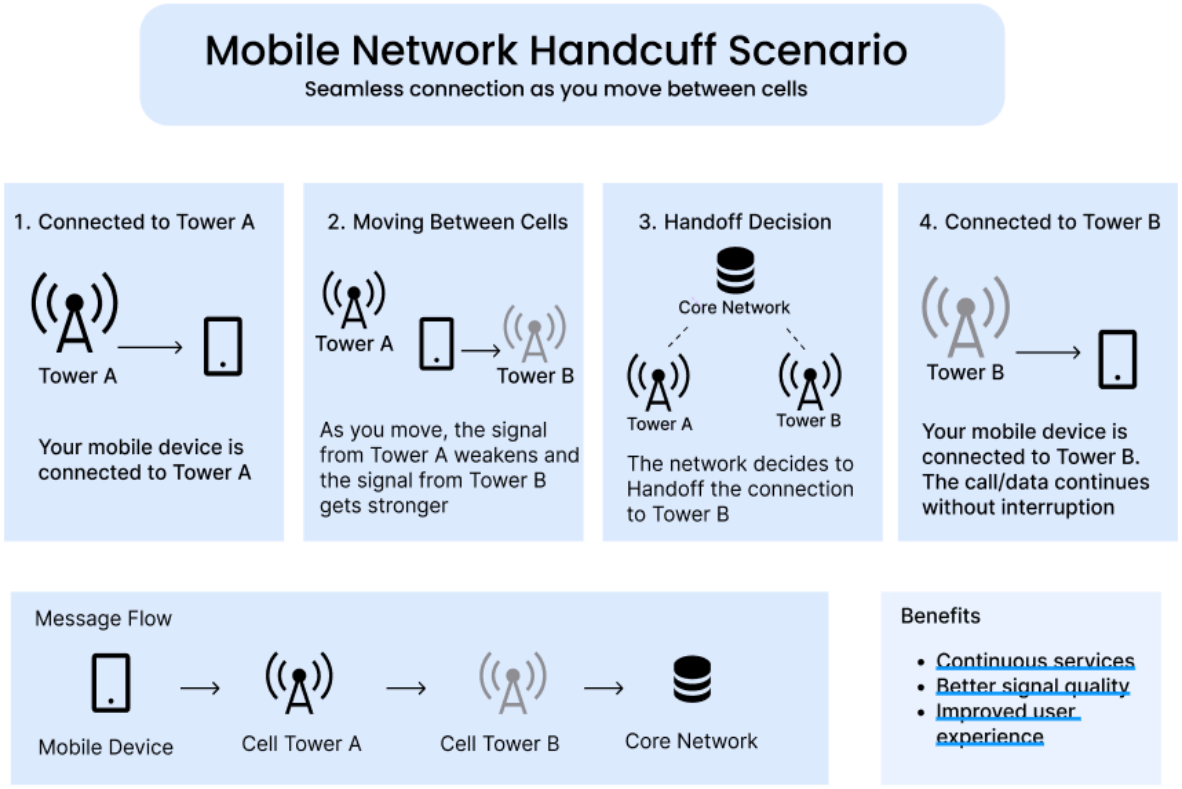

6. Simulation of Handoff Scenario in a Mobile Network

Aim:
To use Figma to simulate a handoff scenario in a mobile network and visualize the process.

Procedure:

1. Open Figma and create a new design file.
2. Create a frame for the handoff diagram.
3. Draw two cellular towers representing Cell A and Cell B.
4. Add a mobile station between the two cells.
5. Draw arrows showing the movement of the mobile station.
6. Show signal strength decreasing in Cell A and increasing in Cell B.
7. Use the Prototype option to demonstrate the transfer of connection.
8. Preview the simulation and verify the handoff process.

Output:

Result:
A mobile network handoff scenario was successfully simulated and visualized using Figma.
